## PROJECTS

### Authentication System

- "A modern authentication system with secure login, seamless signup, and email-verified password reset, built using React, FastAPI, and PostgreSQL."

### PhotoStudio – E-commerce Platform for Photography Services

- "I developed a dynamic and user-centric photo studio website using Django, enabling clients to effortlessly book shoots for pre-weddings, birthdays, and special occasions. With its responsive design, intuitive interface, and secure booking system, the platform ensures a smooth and modern photography service experience."

### Food Delivery Web Application

- Developed a responsive Food Delivery Web Application using React.js with dynamic routing, API integration, and optimized performance through Webpack and Styled Components for a smooth user experience.
